1. Statement

Novelty (N)	Claims	1-10	YES
	Claims		NO

Industrial applicability (IA)	Claims	1-10	YES

2. Citations and explanations

The invention set forth in claims 1 to 10 is not disclosed in any of the documents cited in the international search report, and is therefore novel. In particular, a patch wherein the substrate is fiber mixture wherein the rayon:pulp mixing ratio falls within the range of 3:7 to 7:3 is not disclosed in any of the documents cited in the international search report.

The invention set forth in claims 1 to 10 involves an inventive step in relation to documents 1 to 3 cited in the international search report. Documents 1 to 3 do not indicate that the rayon:pulp mixing ratio of the fiber mixture falls within the range of 3:7 to 7:3, and this feature offers the invention of this application the advantageous effect that adhesive properties are good when patches are affixed in an overlapped manner, and adhesive strength is maintained even if the patch is reapplied.
